Experience

Microsoft

2014 - 2016 Consultant

Stories
Introduced to what technology and sales looks like in the enterprise world.
Contributed both to teams and as an individual to a variety of projects.
Empowered to follow my interests, when it went with the rhythm of the business.
Discovered and ramped on too many technologies to list on this resume.

JP Morgan Chase

2013 Summer Technology Analyst

Stories
Learned what I didn't want in a career: Boredom, Rigidity, Security, Inefficiency.
Became aware for the first time that most dislike change even when it's badly needed.

Urban Arts Space

2012 Art Education

Stories
Encouraged to create my own lessons for developmentally disabled adults and children.
Developed something beyond patience approaching understanding and love for strangers.

The Ohio State University Marching Band

College Member

Stories
Hierarchy in a para-military style was an introduction to maneuvering Corporate America.
Leading those with their own lives, problems, interests, and preferences was enlightening.

Skills – Best to Worst

Building rapport with Customers
Task Automation Scripting
Web Development with Javascript
Mobile Application Development
Creating training documentation
.NET Development with C#
Doing boring, repetitive tasks
Development with C, C++, Java
Collecting Requirements for Software
Dancing without looking weird
